DIGILINK introduces the Optiplus Optical Fiber Distribution Frame under its New Datacenter Solutions.

Mumbai, August, 19th: DIGILINK introduces its OptiPlus ODF (Optical-fiber Distribution Frame) as part of its new datacenter solutions.

An optical distribution frame (ODF) is fiber management unit that organizes fiber and fiber cable connections. They are mainly used as the interface between optical transmission network and optical transmission equipment at optical fiber subscriber's premises or at Data centers. ODF are usually used indoors, at equipment rooms and can vary in size from very small (12F) to large Fiber distribution frames (multiples of 48F)

DIGILINK offers its ODFs in 12Port (1U), 24 Port (2U), 36Port (3U), 48Port (4U) and 72Port (6U). ODF are Combination for cold rolled-powder coated steel sheets, heavy duty telescopic sliding channels and moulded fiber trays using fire retardant ABS. Entire assembly is RoHS complied, in other words lead free.

The ODFs have modular design with sliding mechanism. These can be pre-installed with Variety of prevalent fiber optic adapter interfaces and Fiber pigtails.

The optical distribution frame conform to standard 19" rack configuration is properly designed to take care of minimum bend radius of the fiber/ fiber cable inside the enclosure to avoid extra optical loss. ODFs are ideal for indoor fiber optic cable connections' storage, distribution and management. The sliding mechanism and modular stacking provides easy access and convenience for MAC (Moves, Adds and Changes) desired in Data center environment

Product Features:

- Can hold upto 6 cassettes
- Easy installation
- Can hold different types of connectors
- Has cassettes with splice tray and fiber spool
- RoHS compliant

DIGILINK OptiPlus Optical fiber distribution frames start from Rs. 4000/- onward.

About DIGILINK

DIGILINK has been an industry leader in providing the entire end to end range of structured cabling solutions for enterprises, small and medium business. Our 'Future proof' products deliver unparalleled value and enable our customers to excel through lower total network ownership costs, enhanced productivity, total reliability and easy scalability of their networks.

As per the latest report from IDC, DIGILINK is the No. 2 brand in India in SCS segment. DIGILINK has been regularly awarded with many prestigious accolades. PC Quest Users Choice Awards 2008 ranked DIGILINK as No.1 in India's Most Wanted IT Brands for Structured Cabling. DIGILINK has been recognized as the Channel Champion in Network Cabling 2008, in a channel survey done by CRN and A.C.Neilson. DIGILINK received the award for Best Structured Cabling Brand 2008 by DQ Channel. DIGILINK is recognized as the Most Promising Brand in IT (Editor's Choice Award) by VarIndia Star Nite Award 2008.

DIGILINK has a 24X7 toll free support helpdesk & 24 highly advanced service centers dotted across India to address the customer needs locally.
